The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-3 and 6-10 are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Specht et al. (US 6290159).

The embodiment of figure 2 should be noted (see also column 2, first paragraph). Since the motor is described as being a variable energy absorber (column 4, line 21), it is deemed inherent that the motor is variable in torque/speed which is effected by a variable current which in turn is effected by a variable resistor. A gear train is deemed inherent such as in the coupling 20/21 or, alternatively, the provision of a gear train to couple the motor shaft to the spool would have been obvious to a person having ordinary skill in the art. The generated force is indirectly based on the weight of the occupant since the force exerted on the belt evaluated in evaluating device 26 is deemed proportional to the weight of the occupant.

Claims 4 and 5 are allowed.

Applicant's arguments filed 10/12/04 have been fully considered but they are not persuasive.

It should be noted that column 4, line 21, describes the motor as "variable energy absorber". Lines 22-23 of the same column further adds to this with "Together with the torsion bar 13, this variable energy absorber..."; since the torsion bar is described as a

"fixed predetermined energy absorption" (col 2, line 5-6), the variability must be provided by the motor.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
